PREPARATION AND DISTRIBUTION OF ECO-FRIENDLY LORD GANESHA IDOLS TO PROMOTE ENVIRONMENTAL AWARENESS-11.09.2018

SPACES Degree college has been distributing clay idols free of cost for eco-friendly festival celebration. SPACES Degree college students have taken an oath of making eco-friendly Lord Ganesha idols using mud and water in order to save environment from chemicals. These idols are degradable and they will not hurt any living creatures in the water and protect human health.

After preparation of the eco-friendly idols the students voluntarily distribute them to nearby households for free of cost. Students of SPACES Degree college took active participation in this program and tried to spread message of celebrating festivals without damaging the environment. 450 idols were made this year and distributed in the Tuni and Payakaraopeta. Students made people aware of the adverse effects of encouraging idols made of chemicals and promoted the use of bio-degradable idols. Volunteers took 100 idols to the temple, schools and government offices and distributed to people. Student and societal awareness were promoted in this event. 50 Volunteers, Principal Dr.K.Veerraju Garu and 5 staff members took part in the event.
