

PROGRAM SPECIFIC OUTCOMES (PSOs)

B.Sc – Electronics

PSO1: To gain knowledge in basics of circuit analysis, Analog circuits, semiconductor devices, Digital electronics and communication theory.

PSO 2: To analyze I/P, O/P, V-I characteristics of different circuits.

PSO 3: To develop basic programming skills in Microprocessors and Microcontrollers.

PSO 4: To analyse different parameters of various circuits.

PSO 5: To help students buildup a progressive and successful career in Electronics.

PSO 6: To train students to a level where they can readily compete for higher education courses like Msc and other related disciplines.
